

**COSC 1420.S01
PROGRAM THREE**

ASSIGNMENT:

Write a program which will:

- 1) Read in two whole numbers
- 2) Display whether each number is positive, negative, or zero
- 3) Display which of the numbers is the largest
- 4) Read in a third whole number
- 5) Using only a switch, display the number as a name (i.e. ONE, TWO, etc.) if the number is from zero to nine, or, if the number is not in that range, display "Out of Range".

TURN IN:

- 1) An electronic copy of the .c file in the project folder as created by Visual Studio. This will be emailed to the instructor with the subject line "COSC 1420.S01 – Lab 3".
- 2) If you wish any feedback on your work, turn in a printed listing of the .c file that you created.

DUE: 6 Feb 2019
